## SUMMARY

Full Stack Developer transitioning from sales, seeking full-time a Software Engineering role. Open to internship opportunities.

## EDUCATION

### Certificate: Full Stack Development - New Grad

University of California, Los Angeles 2021

A full-time, 12-week intensive program - focused on gaining proficient computer science and writing coding fundamentals such as algorithms, data structures and object-oriented design. Learning best practices in technical programming skills in HTML/ CSS, Javascript, JQuery, Bootstrap, Node.js, SQL, Express, Handelbars.js & React.

### Bachelor of Arts: American Ethnic Studies

University of Washington, Seattle 2015

Minors: Diversity and Classical Studies

## EDUCATION

**Languages:** Java, Python, JavaScript, HTML/CSS

**Libraries/Frameworks:** React, Node.js, MERN, Es6, Express, SQL, jQuery, AJAX, API's, Handlebars, MongoDB

**Applications:** Heroku, Unit Testing, Figma Wireframes, Git, GitHub, AWS S3

## PROJECTS

### Quarantine Game | <https://gentle-cliffs-28390.herokuapp.com/>

Developed a virtual drinking card game, revolving around the theme of 2020 social distancing.

- Led a team of 4 in designing, developing, debugging and deploying a multi-player web application
- Headed front-end design in creating an intuitive UI, using Figma wireframes/prototypes, style guides and HTML/CSS
- Contributed to full stack development with Javascript, MySQL, Socket.io, benchmarking, and over 90+ Git commits

### PostIt | Currently in Development

A holistic personal care platform for men to learn and explore techniques and products.

- Implemented AWS S3 using React for quick, reliable photo storage and front end user display
- Led full stack development through project management, UX research and data flow mapping
- Created large-scale back-end infrastructure using Node.js, Express, Javascript, AJAX and MySQL
- Provided accurate version control and build documentation via 99+ Git commits and Trello cards

### Home Cooked Comfort | <https://tchristensendrumz.github.io/Home-Cooked-Comfort/>

Created a recipe search web application to help add variety to your quarantine meals.

- Collaborated on a team of 4, using jQuery, AJAX and API's to add functionality to the result and unit converting features
- Accomplished responsive web design utilizing Javascript, Figma wireframes, and HTML/CSS

## PROFESSIONAL EXPERIENCE

### Applications Developer | Release Manager

March 2015 - September 2015

#### Forms on Fire

Bellevue, WA

- Developed, debugged, and deployed mobile IOS and Android applications and monitored post production
- Implemented and managed backend data infrastructure for 3 high profile clients using Java and Python
- Working knowledge of the Software Development Life Cycle (SDLC) and agile delivery methods

### Founder and Ice Cream Developer

May 2020 - September 2020

#### The Cup or Cone

Seattle, WA

- Increased revenue by 100% in 4 weeks from streamlining workflow, production processes and delivery methods
- Produced website, E-Commerce, and content strategy to coordinate weekly sales and web content
